

Dear Inquisitive Soul:

We all go through stages of ups and downs in our life. Sometimes we are able to sort things out while at other times, we feel getting stuck in the rut. In such moments, which come a lot during our life from 25 to 55, we try to find solace in religion or surrendering to God's will (*Meri to kismet hi aisi hein*).

I, with my life spent over three continents as an IT consultant-entrepreneur and children living all over the world, since 2005 am teaching Holistic Way of life drawn primarily from my experience and Jain philosophy. My daughter, Ms. Anita Jain, living in Switzerland for more than 15 years with her family, has a rich experience as Senior Executive with world famous MNCs and is now working as a private life Coach. We both designed the program Rhythm of Life or ROL to discuss life experiences and views of greatest psychologists, achievers in business and sports, Philosophy and religion and finally superimposed by our own experiences. .

ROL strongly believes that changes are needed to be made in our Inner World i.e., beliefs, values, perspectives, to create opportunity for introspection at a deep level and then creating a vision and implementation from there.

Wheel of dharma below depicts the philosophy behind ROL program:

The entire ROL program consists of two phases:

1. ONLINE (preparatory to retreat) : Four pre-recorded lectures will be made accessible to participants to prepare them with the philosophical background
2. RETREAT: At a picturesque meditation retreat.
